Senator Lenroot, at the night session, said that while he was hopeful of results from the armainent conference in November, he saw no prospect of putting any sort of limitation on the inventive genius of any nation. Such being the case, he asserted, it behooved America to achieve the last degree of preparetiness in chemical warfare. He advocated the catablishment of a reserve of chemists and plants that could readily be converted to the manufacture of explosives and gases.

that although without even a large navy or army, while our energies are being exerted along the paths of peace, neverthetess we are possessed of the last word in science and invention and are ready to use it—that we have the skill and material to defend ourselves. Then never again shall any nation look on us with contempt and mock our ability to

Let us agree to sink our battleships, t our cannon, destroy our fortifica-is, if other nations will do likewise, t let us encourage rather than destroy gress in discovery and invention king for the happiness and welfare of people in time of peace, and for ir defence in time of war."

celled films starring Roscoe Arbuckle pending the outcome of his arrest in ling the arrest of Roscoe ("Fatty") Armade in America we will have the chemists and we will have the chamtstain and we will have the plants that will make America so strong in defensive warfare that none will dere to attack us. We should remember, too, that we shall be in such a favorable situation as we were in the last war. For two and a half years we had been making explosives for the Allies. Our chemists were employed in the development of high explosives before we declared war at all. We had two and a half years to prepare before we did go in. "Let us hope that the conference in Experiment of high explosives before we did go in. "Let us hope that the conference in Experiment of high explosives had been we did go in. "Let us hope that the conference in Experiment of high explosives had been we did go in. "Let us hope that the conference in Experiment of the end of large navies and hage armies, but let us not be idictic enough to enter into any agreement that the scientists of the nation shall not employ their brains in research and development that will assist in defending our nation should any dare altock us."

Let us hope that the conference in Experiment of the end of large navies and hage armies, but let us not be idictic enough to enter into any agreement that the scientists of the nation shall not employ their brains in research and development that will assist in defending our nation should any dare altock us."

Let us hope that the conference in Experiment of the end of large navies and hage armies, but let us not be idictic enough to enter into any agreement that the scientists of the nation shall not employ their brains in research and development that will assist in defending our nation should any dare altock us."

Let us hope the have and bear and had experiment of the end of large navies and hage armies, but let us not be idictic enough to enter into any agreement that the scientists of the nation of the end of the charg

cither.

Dr. Charles H. Harty, editor of the Journal of Industrial and Engineering Chemistry also spoke. Motion pictures showing fron mining operations and "The Story of Abrastves," supplied by the United States Bureau of Mines and the Carborundum Company, were shown. To-day's programme will deal principally with the application of chemistry to Industrial problems. The exposition to Industrial problems. The exposition will be open daily for the remainder of the week from noon till 10 P, M.

TWO QUESTIONED ON MURDER

Mrn. Dorothy Dale, 22, of Bridgeport and John Weber, 28, of 332 East Sixty and John Weber, 28, of 232 East Sixtyfourth street, were questioned yesterday
by Assistant District Atterney John R.
Honnis in regard to the murder of Waiter Vogel, who was shot in a case at
169th street and Columbus avenue on
September 4. According to the police,
the murderers of Vogel went to the flat
which Weber and Mrs. Dale occupied
and changed their stained clothes. One
of the alleged murderers was wounded
and his wounds were dreased in the
flat, the detectives said.

Weber and Mrs. Dale were both out
at the time, Mr. Hennis announced, and
could furnish no information of value.

burgh playhouses as the result of action taken by the owners of the biggest string of moving picture theatres here, probably will be prohibited through the entire State, according to Fred Herrington, secretary of the Pennsylvania Association of Motion Picture Owners. A meeting of the directors of the State association will be held to-morrow and it is expected that the Arbuckle cases will come up for discussion.

According to Rowland Clark, Paramount exhibitors in this district and operators of the largest group of theatres controlled by any company here, Arbuckle pictures will be banished from their houses at once.

America Haa Best Gas Mask.

Bris.-Gen. Eries stressed the importance of Senator Lenroot's suggestion for a capable reserve of chemists as a factor in national defence and told of the development of this branch of the military service since the armistice.

Many suggestions and ideas taken from the enemy in the early days of the war, said Gen. Fries, have been developed and enlarged to a surprising degree. Taking the gas mask as an example, he said America had not been so well equipped as either France or Great British and French in the armistice the American Chemical Warfare Service has taken the best ideas of both the British and French masks until now she has one better than either.

Dr. Charles H. Harty, editor of the foundating of Industrial and Engineering of the said American Residuance of Industrial and Engineering Industrial and Industrial Indus

Nugent, a niece of Mrs. Smith. Mrs.

Smith lived in Brooklyn and was known as a philanthropist.

Mr. Flatto contended that there was no reason for the appointment of a receiver and that Mrs. Nugent's demand that Smith and his bride, formerly Clair Staley, an actress, be enjoined from removing any of the securities from vaults of trust companies, was without medit. Papers submitted by Mr. Flatto deny that Mrs. Smith was opposed to her son's marriage to the actress. They even set forth that she had "an affectionate regard" for her daughter-in-law. The papers, however, do not explain why Smith signed the agreement to pay his cousin one-half of his share of the

MARY PICKFORD

in her special film production

"Little Lord Fauntleroy"

From the Novel by Frances Hodgson Burnett

A film play for the eyes of the world to behold and admire, a photodrama that is remarkable, unusual

and in every sense of the word a notable production.

Notable because of the fame, tenderness and emo-

the sincerity and appeal of each of its lovable characters; because of the sincerity and appeal of each of its lovable characters; because of the amazing and incredible photographic effects achieved through tedious double exposure work; because of the beauty of scene and careful attention to detail with which it has been careful attention to detail with which it has been

staged; and because of the presence in a striking dual role of Mary Pickford, more bewitching and
